**ACCESS SHOWROOM FACT SHEET****Overview:**

Aliante Station's Access Showroom spans 13,500 square feet and is viewed as the "crown jewel" of Station Casinos' intimate concert/showroom venues. Access Showroom prides itself on providing guests with an eclectic line-up of performers at affordable prices. Guests can also enjoy an intimate concert experience as every seat or lavish luxury booth (complete with bottle and table service) is no more than 75 feet away from the stage.

Access Showroom also serves as a local's hotspot on Friday and Saturday nights, featuring Vegas' favorite classic rock cover band, Yellow Brick Road on Friday nights and '80s glam metal parody band Steel Panthers on Saturday nights. On Wednesday afternoons, guests will enjoy the swingin' style of crooner, Jerry Tiffe. When the house bands are not playing, Access showcases a diverse line-up of the top names in music, including recent performers Smokey Robinson, REO Speedwagon, Poison front man and "Rock of Love" reality show star Bret Michaels; jazz trumpeter Chris Botti; singer/songwriter Kenny Loggins; Godsmack's Sully Erna; Aaron Lewis of Staind; and singer/songwriter, Kenny Loggins.

**Seating:** Standing room only 700, when set for the showroom 600, when set for the lounge 340

**Design:**

The theatre's physical appearance is a mixture of high-end and cutting-edge, thanks in part to the architectural design by Montreal-based Scéno-Plus, the same firm responsible for constructing Cirque du Soleil tailored theatres for numerous Las Vegas Strip properties; and interior design is by New York-based Studio Gaia.

**Audiovisual Highlights:**

When set for a concert, the 2,165 square foot stage and high-impact sound system create the perfect canvas for the world's top musicians to display their art.

Access delivers world-class sound thanks to its Yamaha PM5D soundboard that expands to 96 channels, providing an amazing array of options to the musicians. Acoustical ceiling panels further enhance the audio by reducing distortion.

The showroom is complemented by a 16' x 30' video screen and two flanking 9' x 16' video screens that project a mix of immersive imagery to captivate the audience, thanks to four DL3 projectors that represent the latest generation of video technology available today.

**VIP Options:**

Posh booth and luxury boxes, complete with table and bottle service, provide premier sightlines to the action on the stage and create a feeling of exclusivity.

**Tickets and Show Schedules:**

Ticket prices are per person and do not include applicable taxes and entertainment fees.
